

We Partner with 17,000 Schools to Help 7 Million Students Achieve More

SUBSTANTIATED SUCCESS

College Board programs increase college enrollment and retention rates and engage students in college and career exploration.

BACKED BY RESEARCH

Programs undergo a research-based development and design process, and can be used to meet state requirements.

INSTRUCTION, ASSESSMENTS, AND FUTURE PLANNING WITH A PROVEN TRACK RECORD OF SUCCESS

INSTRUCTION

AP COURSES

An array of 40 college-level courses that allow students to pursue their interests and build skills for college and career.

PRE-AP[®]

Grade-level instruction designed to help students develop skills to succeed in AP[®] and other courses.

ASSESSMENT

AP EXAMS

Corresponding exams that give students the opportunity to earn college credit, advanced placement, or both.

SAT SUITE

An integrated system of tests that measure what students are learning in class and what they need to succeed in college and career.

PLANNING

BIGFUTURE[®]

Free planning website that helps students explore careers, learn how to plan and pay for college, and rewards them with scholarships for their efforts.

BIGFUTURE[®] SCHOOL

Mobile app providing college and career insights based on students' SAT[®] Suite of Assessments scores.

UNCOVERING POTENTIAL

"The AP, SAT, and PSAT-related assessments are avenues to reveal success that students have experienced so far, and to reveal potential. They help us connect students with a pathway they otherwise wouldn't have experienced or pinpoint challenges our students have had. This is absolutely critical to the work we do."

— Thomas Taylor, Superintendent, Montgomery County Public Schools, Md.

EXPANDING ACCESS

"We're committed to access and participation in education and ensuring that a diverse range of students can benefit from and succeed in challenging academic programs. We really believe in the research that college and career access is improved when students are involved in high-level work, and the AP curriculum is as good as it gets."

— Scott Bersin, Assistant Superintendent of Curriculum and Instruction, Bellmore-Merrick CHSD, N.Y.

LEVERAGING DATA

"Since we started to analyze the data related to the SAT Suite of Assessments, we increased the number of our graduates attending college by 15 percentage points and went from 0 to 5 students participating in the National Merit[®] Scholarship Program. The SAT Suite is clearly having a positive impact."

— Dr. Mark Smithberger, Principal, Berea-Midpark High School, Ohio
